

SUPPORTING ACTORS FOR THE STARTUPS & FELLOWSHIP PROGRAMS

Entrepreneurship Is Not An Easy Road And The More You Grow The More Challenges You Face. From awareness and sustainability of businesses to regulations associated with legality and enforceability, the list of challenges is long. So how does one move forward and get ahead? Where do entrepreneurs get their dose of skill and how to turn their startup ideas into reality? Incubators have an answer to the problem.

At a high level, startup accelerators and incubators are organizations that seek to help startups attain success. Startup accelerators tend to focus on providing startups with mentorship, advice, and resources to help the startups succeed, including a Demo Day, a day to focus the attention of the startup investor community on the startups through hosting a series of investments pitches from the startups to startup investors.

- Startup accelerators and incubators can get involved at all stages of a startup's development, from idea stage to revenue-generating, late stage.
- This creates an innovation-friendly environment that makes it easier for great ideas to be turned into products and services also improving economy
- In particular incubators and accelerators are considered as policy instrument for the promotion of entrepreneurship and innovation
- Business incubation center can be defined as “a shared office space facility that seeks to provide its incubatees (the ‘tenants’) with a strategic, value-adding intervention system of monitoring and business assistance with the objective of facilitating the successful new venturing development while simultaneously containing the cost of their potential failure”.
- Incubators act as catalysts for the transfer of knowledge and technology, thereby facilitating and accelerating innovation processes. It create value to the start-ups by providing access to new ideas and resources that support business processes.
- Focusing on incubators and accelerators some features & differences can be depicted as :

Table 1 –Incubators and Accelerators: the key drivers

Drivers	Incubators	Accelerators
Business model	Added value services	Added value services
Networking	Internal/External	Internal/External
Life time step of new venture	Childhood	Adolescence
Timing	Different duration	3-4 months
Main function	Support	Support
Equity	Equity	Small equity
Main aim	Increasing of opportunities	Community

Therefore, here are the major government initiatives that are driving this wave of incubation state-wise:

I. ANDHRA PRADESH

Therefore , by looking at above list of incubators , it can be stated that the

“Incubators help increase entrepreneurial success, opportunity and are able to strengthen communities”.

They play an important role in the shaping of India’s robust start-up network.

FELLOWSHIP PROGRAMS

A fellowship program is a great way for entrepreneurs to get hands-on experience, grow their networks, and develop their professional initiatives.

Whether you're interested in connecting with investors, learning more about running a business, or need assistance taking your startup to the next level, an entrepreneurial fellowship may be just the vehicle you need to turn your entrepreneur dreams into reality.

If you are passionate about making a difference in your community through entrepreneurship, these fellowships are for you! The opportunities they provide are wide-ranging and give you practical experience in your field. Whether you want to serve communities through the arts, or work with a team to reduce poverty, these fellowships have the potential to be transformative in your work as a social entrepreneur.

12 Entrepreneur Fellowships You Should Consider:

1. **Ashoka Fellowship Program**

If social entrepreneurship with a global impact is your passion, the Ashoka Fellowship may be the program for you. Ashoka Fellows work in over 70 countries around the globe in every area of human need. From nomination to election as a Fellow, candidates go through an extensive series of in-depth interviews, a judging panel, and a final executive board vote. The three-year fellowship includes a living stipend to cover all expenses.

2. **Bluhm/Helfand Social Innovation Fellowship**

Created in 2011 by Leslie Bluhm and David Helfand as a way of advancing the next generation of social entrepreneurs, the BHSI Fellows are hosted in Chicago for Chicago Ideas Week (October), all expenses paid. Fellows gain exposure for their organization, establish a community of support, and receive a \$10,000 financial contribution for their venture. All applicants must be 35 years of age or younger, may be from anywhere in the world, and ventures may be for-profit or not-for-profit entities.

3. **Founder Institute's Girls in Tech Fellowship**

All females across the globe can apply to the Founder Institute for free, and the top technical female applicant in each of their 150+ cities will receive free access to our idea-stage accelerator program, office hours with a top female entrepreneur, and other free resources to help them launch a company. Any motivated female tech entrepreneur, or aspiring entrepreneur, can apply for the Fellowship in any Founder Institute program before that program's Early Application Deadline.

4. Kauffman Fellowship

Founded by pharmaceutical entrepreneur, Ewing Marion Kauffman, the Kauffman Foundation offers a variety of entrepreneurship-focused programs that are worth checking out. The Kauffman Fellowship program involves working full time at a venture capital firm, allowing the fellow to experience case-based, structured educational curriculum with an individual development plan, executive coaching, mentoring by a senior partner, and peer learning and networking — all with a focus on giving back and one's responsibility as a leader in venture capital. If "big" entrepreneurship is your calling, it's worth checking into.

5. Inspiring Capital MBA Fellowship

If you're an MBA student interested in moving into the social entrepreneurship sector, Inspiring Capital's Fellowship may be for you. It's a 10-week, paid fellowship based in New York City that trains MBA students to use their business expertise for social good and staffs them on a project for a high-performing not-for-profit or social venture to help the organizations develop sustainable business strategies. Fellows receive expert training, hands-on experience, individual career guidance, access to the Inspiring Capital network, and a stipend of \$3,000 for the summer.

6. Open Hands Fellowship for Young Women Entrepreneurs

Open Hands' two-week entrepreneurship boot camp and pitch day provided an opportunity to amplify the impact of 20 young female entrepreneurs from the United States and Jordan. The program offers entrepreneurial training, mentoring, team projects, and a pitch competition with more than \$150,000 in grant prizes. In addition to the program, fellows are provided a year of complimentary membership to a professional women's network.

7. Thiel Fellowship

If you're under the age of 22, and college just isn't your thing, consider applying for the Thiel Fellowship Program. Founded in 2011 by technology entrepreneur Peter Thiel, the fellowship is a two-year program for "young people who want to build new things". Thiel Fellows bypass or defer college to receive a \$100,000 grant and support from the Thiel Foundation's network of founders, investors, and scientists and explore their entrepreneurial talents.

9. Cansbridge Fellowship

The Cansbridge Fellowship seeks to build future leaders through a program that fosters growth through creating new ideas and using a powerful network for change. Leaders and entrepreneurs who think outside the box and who have a past as risk-takers are invited to apply. Fellowship includes international work experience in Asia, a conference in San Francisco and access to the Cansbridge Global Network. Applicants must be undergraduates currently enrolled in a Canadian college or university and pursuing a degree in business, science, design or technology.

10. Echoing Green Climate Fellowship

The Echoing Green Climate Fellowship, built in partnership with the ZOOM Foundation, was launched for leaders committed to mitigation and adaptation to climate change. Echoing Green is interested in applications from social entrepreneurs interested in the full spectrum of mitigation and adaptation responses. This can be anything from a US-based technological solution to a developing world-based community organizing solution. Fellows receive a stipend paid in four equal installments over two years (\$80,000 for individuals; \$90,000 for two-person partnerships), in addition to health insurance and professional development stipends.

11. Global Good Fund Fellowship Program

The Global Good Fund accelerates the development of high potential young leaders tackling the world's greatest social issues through entrepreneurship. We achieve this by investing both targeted human and financial capital in these leaders through our 15 month fellowship program. We support our Fellows in their natural work environments, craft personalized Leadership Development Plans, and pair Fellows with personalized executive coaches through implementation with up to \$10,000 in funding. We additionally provide fellows with leadership assessment resources, a network of peer leaders, and sector expertise.

12. Resolution Fellows

Resolution Fellowships recognize young leaders for their initiative and innovation in addressing social challenges through social entrepreneurship. Resolution provides Fellows with access to a full ecosystem for a new social entrepreneur. This includes seed funding of up to \$3,000 per team to launch the venture proposed for a Social Venture Challenge, along with ongoing mentorship, pro bono services, robust support and access to the Resolution network. You must be a current undergraduate student in college or university and a Founder of the Social Venture you are proposing. Please check the websites for upcoming Challenges.
